Back Office > **Shipping** > **Carriers**

? How to create a new carrier?

- Click "Add new".
- Fill in the fields and click "Save".
- You need to decide a price range or a weight range for which the new carrier will be available. Under the "Shipping" tab, click either "Price Ranges" or "Weight Ranges".
- Click "Add new".
- Select the name of the carrier and define the price range or the weight range. For example the carrier can be made available for a weight range between 0 and 5kgs. Another carrier will have a range between 5 and 10kgs.
- When you are done, click "Save".
- Click on the "Shipping" tab.
- You need to choose the fees that will be applied for this carrier. At the bottom on the page, in the "Fees" section, select the name of the carrier.
- For each zone, enter a price. Click "Save".
- You're set! The new carrier will be displayed to your customers.
